HIGH PERFORMANCE TRAINING FUEL

CARBION+™ has taken hydration to a whole new level. You need carbohydrates to fuel your muscles and delay the onset of fatigue. The phased carbs in CARBION+™ will maintain your blood glucose levels longer so you don't crash and you can keep going longer and harder at a higher level of performance.

When you sweat, you lose electrolytes as well as water. Increased levels of highly absorbable electrolytes in new CARBION+™ will ensure you stay hydrated so you can retain and utilize the fluids you are consuming. Additionally, the absorption blend in CARBION+™ helps to initiate the uptake of blood glucose into cells, meaning more actual fuel in the muscle.

What does this mean to you?

- More Refreshing & Better Hydration
- Fuels Improved Performance & Faster Recovery

PRE-CONTEST WATER REMOVAL SYSTEM

The most advanced competition-specific water loss system ever. HYDRADRY™ is tailored specifically to the needs of the on-stage competitor who needs the sharpest, razor-like hardness that only HYDRADRY™ can deliver.

HYDRADRY™ works by eliminating excess water from beneath the skin to reveal the kind of detail that wins shows. Puffy, bloated skin caused by excess water hides muscle definition; this is made even worse by the harsh lights used in stage competition.

The HYDRADRY™ Pre-Contest Water Loss System provides the ideal time frame to ensure razor-sharp definition. Since there are no harsh chemicals, HYDRADRY™ works with your body to gently but effectively reduce the appearance of edema or puffy skin caused by excess water.

DESIGNED FOR THE COMPETITIVE ATHLETE

ALLMAX Pro-Competition Series LIVER D-TOX™ is a potent combination of clinically proven herbal extracts in their most pure and potent form along with powerful vitamin antioxidants such as vitamins C & E and selenium. NAC (N-Acetyl-Cysteine) is so potent that it is used in cases of liver toxicity due to acetaminophen.

A very minor reduction in function can result in less than optimal performance. A wide range of products out there can impair liver function, some rather dramatically. Alcohol, pharmaceutical or recreational drugs, aflatoxins and even common over-the-counter drugs such as acetaminophen in higher doses can tax the liver.

What does this mean to you?

- 21-Day Liver Detoxification System
- Ultra Potent 30% Silybin Content
- Rare Picrorhiza Kurroa Extract

FAST ACTING DEEP SLEEP

ALLMAX has taken the best-of-the-best key ingredients known to produce a deep sleep and to get there quickly. We all know that a good night's sleep is essential. Get to sleep fast so you can wake up feeling rested and refreshed.
