

CASEIN-FX™ – Feed Your Muscles While You Sleep*

Are You Missing The Biggest Opportunity To Gain Muscle?

The most neglected time to gain muscle is when you sleep! The 8 to 10 hours of sleep you need is the longest period of time you will go without protein. During this time, you're missing an opportunity to keep building muscle, but just as important, preventing your body from breaking your muscle down!*

The research is clear and decisive on this point; getting 20g to 40g of slow-digesting protein before you sleep stimulates muscle protein synthesis and limits the breakdown of muscle. Micellar Casein is unique. During digestion it slows down providing a trickle-feeding effect over a long period of time.*

CASEIN-FX™ is free of any Non-Protein Amino Acids. This means that all of the protein you're getting comes from a complete whole protein source. **CASEIN-FX™** is Gluten-Free and Lab Tested to ensure the purity, quality and potency you have come to expect from **ALLMAX®**. At nearly 80% protein yield, you're getting a low-carb*, no sugar added* meal that tips the balance of daily protein intake in your favor.*

CASEIN-FX™ is a thick and delicious protein containing pure Micellar Casein to provide 8 HOURS of protein delivery! You will notice that **CASEIN-FX™** is thicker when you mix it up. This also helps you feel more full and helps to prevent you from late night snacking. **CASEIN-FX™** provides a convenient, easy-to-mix and delicious way to keep your muscles fueled for hours.*
